

INDEX TO VOLUME 42

Subject entries are made for all articles. Author entries are made for original articles. Book Reviews and Obituaries are indexed under these headings in alphabetical order under the letters B and O, respectively.

Abdomen: See also Gastrointestinal Tract; Peritoneum; etc.
fibrinogen plastics; tissue reactions induced by series of fibrinogen plastics implanted in abdominal wall of guinea pigs, 535
Abnormalities and Deformities: See also under names of organs and regions, as Heart; Liver; etc.
congenital malformations and anomalies of Okinawans, 364
duodenitis with diverticulum and ectopic pancreatic tissue, 228
Abscess: See under names of organs and regions, as Liver; etc.
Acid, Nucleic: See Nucleins
Actinomycosis, radiate formation in human tissue in, 113
Adams, R. D.: Primary Hodgkin's sarcoma of brain, 338
Adams-Stokes Disease: See Heart, block
Adenocarcinoma, primary, of umbilicus, 635
Adenoma; primary hyperparathyroidism; report of 5 cases that exemplify special features of this disease (infarction of parathyroid adenoma; oxyphil adenoma), 261
Adipose Tissue: See Fat; Lipoma
Adrenals; birefringence in adrenal gland, 76
hemorrhage; meningococemia and Waterhouse-Friderichsen syndrome; sudden and unexpected deaths of young soldiers; diseases responsible for such deaths during World War II, 477
primary melanoma of adrenal gland, 345
toxicology of 1,2-dichloropropane (propylene dichloride); pathologic changes produced by short series of daily exposures, 525
Age, atherosclerotic valvular disease of heart, 285
Old: See Old Age
Alkalosis; renal changes associated with chloride deficient diet in rat, 49
Alloxan; alloxantin; investigation of substance as used in experimental production of diabetes, 214
Alloxantin; investigation of substance as used in experimental production of diabetes, 214
deAlmeida-Lutz-Splendore Disease: See Blastomycosis
Altschul, R.: Experimental cholesterol arteriosclerosis; changes produced in skeletal muscle, 277
Alvarenga prize, 243
Amebiasis; in vitro effect of penicillin on *Endamoeba histolytica*, 594
Amenorrhea; bilateral ovarian aplasia, 381
American Board of Pathology, 456
Medical Association, Scientific Exhibit at Atlantic City Session, 455
Registry of Pathology, 355
Anaphylaxis and Allergy; cardioaortitis; report of case, 495
lesions of reticuloendothelial cells in anaphylactic shock, 412
reaction of rats following injection of anti-rat-heart immune serum, 222

Aneurysm; experimental medionecrosis of aorta, 182
Angioma; angiomatoid formations in genital organs with and without tumor formation, 56
Antigens and Antibodies: See also under specific antigens and reactions
lesions of reticuloendothelial cells in anaphylactic shock, 412
Antiserum: See Serum; and under names of various diseases
Aorta; absence of left cardiac ventricle with aplasia of aortic orifice and hypoplasia of aorta, 590
experimental medionecrosis of, 182
stricture; atherosclerotic valvular disease of heart, 285
temporal arteritis; report of case and comparison to periarteritis nodosa, 402
Aortic Valve; atherosclerotic valvular disease of heart, 285
Aortitis; cardioaortitis; report of case, 495
Apparatus; centrifuge method of determining blood proteins, 350
Appointments, 243, 455, 658
Armies: See Military Medicine
Army Institute of Pathology, 355
Arrick, M. S.: Stem cell lymphoma of newborn, 104
Arteries: See also Aneurysm; Aorta; Arteriosclerosis; Blood pressure; Blood vessels; Embolism; Periarteritis; Thrombosis; etc.
carotid; carotid-cavernous fistula, 419
Hypertension: See Blood pressure, high
inflammation; temporal arteritis; report of case and comparison to periarteritis nodosa, 402
pulmonary; organized emboli of tertiary pulmonary arteries; unusual cause of cor pulmonale, 581
pulmonary; truncus arteriosus communis persistens, 427
Arteriosclerosis and atherosclerosis in dogs following ingestion of cholesterol and thioracil, 433
atherosclerotic valvular disease of heart, 285
experimental atherosclerosis; effect of prolonged feeding of egg yolk powder in rats, 81
experimental cholesterol arteriosclerosis; changes produced in skeletal muscle, 277
medial calcification of arteries of infants, 607
primary pulmonary vascular sclerosis, 630
Arteritis: See Arteries, inflammation
Arthritis; pathologic changes in gouty arthritis, 557
Ascites: See also Exudates and Transudates
hepar lobatum; clinical significance of anatomic changes, 64
Ashworth, C. T.: Atherosclerotic valvular disease of heart, 285
Aspergillus; acute bronchopneumonia due to *Aspergillus fumigatus* fresenius; report of case, with description of acute and granulomatous lesions produced by fungus in rabbits, 644
radiate formation of fungi in human tissue in aspergillosis, 117
Atheromatosis: See Arteriosclerosis
Atherosclerosis: See Arteriosclerosis
Atrophy: See under names of organs and regions
Autopsies; necropsies on Okinawans; anatomic and pathologic observations, 359
Awards, 243, 455

- Bacteria:** See also under Meningococci; Pneumococci; Streptococci; etc.
 Dysentery: See Dysentery
 Shigella: See Dysentery
 Baggenstoss, A. H.: Primary melanoma of adrenal gland, 345
 Bailey, O. T.: Fibrinogen plastics; tissue reactions induced by series of fibrinogen plastics implanted in abdominal wall of guinea pigs, 535
 Bauer, F. C., Jr.: Reaction of rats following injection of anti-rat-heart immune serum, 222
 Bell, E. T.: Functioning of fetal kidney as reflected by stillborn infants with hydroureter and hydronephrosis, 274
 Benzpyrene; course of wound healing in skin of mice under influence of carcinogens, 193
 Biliary Tract: See Gallbladder; Liver
 Birefringence: See Microscopy
 Birth, Stillbirths: See Stillbirths
 Blakind, G. R.: Pathologic aspects of atmospheric blast injuries in man, 12
 Blades, B.: Primary bronchogenic leiomyosarcoma, 543
 Bland, E. F.: Organized emboli of tertiary pulmonary arteries; unusual cause of cor pulmonale, 581
 Blast: See Explosions
 Blastomycosis, 137. See also Coccioidiomycosis
 North American blastomycosis or Gilchrist's disease, 140
 radiate formation of fungi in human tissue in paracoccidioid granuloma, 135
 Blood: See also Leukocytes
 birefringence in, 72
 cholesterol; experimental atherosclerosis; effect of prolonged feeding of egg yolk powder in rats, 81
 Diseases: See Leukemia
 pathologic changes resulting from administration of streptomycin, 619
 pressure, high; atherosclerotic valvular disease of heart, 285
 primary hyperparathyroidism; report of 5 cases that exemplify special features of this disease (infarction of parathyroid adenoma; oxyphil adenoma), 261
 proteins; centrifuge method of determining blood proteins, 350
 sugar; alloxantin; investigation of substance as used in experimental production of diabetes, 214
 Vessels: See also Arteries; Periarthritis; etc.
 vessels; experimental cholesterol arteriosclerosis; changes produced in skeletal muscle, 277
 Bones: See also under names of bones
 birefringence in, 71
 marrow; disseminated reticuloendothelial tumor of bone marrow with nodular osteosclerosis, 206
 marrow; leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
 pathologic changes in gouty arthritis, 537
BOOK REVIEWS:
 Autopsy Diagnosis and Technique; O. Saphir, 357
 Diseases of Retina; H. Elwyn, 244
 Experimental Hypertension: Being Results of Conference on This Subject Held by Section of Biology of New York Academy of Sciences, Feb. 9 and 10, 1945, 357
 Hépatites rares; M. Loeper, 657
 Human Embryology; B. M. Patten, 656
 Human Torulosis: Clinical, Pathological and Microbiological Study with Report of Thirteen Cases; L. B. Cox and J. C. Tolhurst, 244
BOOK REVIEWS—Continued
 Medical Jurisprudence and Toxicology; J. Glaister, 244
 Mongolism and Cretinism: Study of Clinical Manifestations and General Pathology of Pituitary and Thyroid Deficiency; C. E. Benda, 555
 Nouvelles études cliniques et biologiques sur la pathologie du foie; E. Chabrol, 656
 Penicillin: Its Practical Application; A. Fleming, 458
 Principles and Practice of Tropical Medicine; L. E. Napier, 358
 Quantitative Clinical Chemistry: Interpretations; J. P. Peters and D. D. Van Slyke, 657
 Rein polykystique: Etude morphologique, clinique et physiopathologique; P. P. Lambert, 457
 Renal Diseases; E. T. Bell, 555
 Renal Hypertension; E. Braun-Menendez and others, 457
 Topley and Wilson's Principles of Bacteriology and Immunity; G. S. Wilson and A. A. Miles, 111
 Tumeurs et polypes du coeur: Etude anatomo-clinique; I. Mahaim, 536
 Books received, 111, 112, 244, 357, 457, 555, 656
 Brain: See also Meninges; Nervous System; etc.
 birefringence in nervous tissue, 70
 eclampsia; report of case with extensive destruction of brain, 391
 epidemic poliomyelitis; some pathologic observations on human material, 245
 injuries; cerebral concussion; histochemical demonstration of nucleases in cerebrospinal fluid, 175
 primary Hodgkin's sarcoma of, 338
 repair; phospholipid-splitting enzymes of brain phagocytes, 564
 Breast, birefringence in, 74
 lipoma of mammary gland, 641
 Bright's Disease: See Nephritis
 Bronchi; primary bronchogenic leiomyosarcoma, 543
 Bronchopneumonia, acute, due to *Aspergillus fumigatus* fresenius; report of case, with description of acute and granulomatous lesions produced by fungus in rabbits, 644
 Bruger, M.: Experimental atherosclerosis; effect of prolonged feeding of egg yolk powder in rats, 81
 Bubo, Climatic: See Lymphogranuloma Venereum
 Bueno, P.: Lesions of reticuloendothelial cells in anaphylactic shock, 412
Calcification: See Kidneys, calculi
 Calculi: See Kidneys, calculi; etc.
 Cammermeyer, J.: Tumor of tactile end organs, 1
 Cancer: See also Adenocarcinoma; Sarcoma; Tumors; and under names of organs and regions, as Liver; Lungs; Stomach; etc.
 course of wound healing in skin of mice under influence of carcinogens, 193
 further evidence for successive stages in formation of neoplasms, 445
 stem cell lymphoma of newborn, 104
 Capsule formation of fungi in human tissue, 145
 Carcinogens: See Cancer
 Carcinoma: See Cancer
 Cardiovascular System: See Arteries; Heart
 Castleman, B.: Organized emboli of tertiary pulmonary arteries; unusual cause of cor pulmonale, 581
 Cells: See also Phagocytes and Phagocytosis; Tissue; etc.
 division; course of wound healing in skin of mice under influence of carcinogens, 193

Cells—Continued

- granular cell myoblastoma, 517
 physiology, in vitro studies on; interactions of thymic cells and oxidation-reduction indicator, 2,6-dichlorophenolindophenol, 163
 reaction of reticuloendothelial cells to subcutaneous injections of cholesterol; experimental animals: mice, 299
 renal intratubular syncytial masses; note on their origin, 572
 Cerebrospinal Fluid; cerebral concussion; histochemical demonstrations of nucleases in, 175
 Cerebrum: See Brain
 Chemotherapy: See under names of diseases and chemotherapeutic agents
 Chest: See Thorax
 Children: See also Infants
 structure of testis in infancy and in childhood with discussion of so-called underdeveloped testis, 35
 Chlorides: renal changes associated with chloride-deficient diet in rat, 49
 Chloropropane; toxicology of 1,2-dichloropropane (propylene dichloride); pathologic changes produced by short series of daily exposures, 525
 Cholesterol arteriosclerosis, experimental; changes produced in skeletal muscle, 277
 atherosclerosis and arteriosclerosis in dogs following ingestion of cholesterol and thiouracil, 433
 atherosclerotic valvular disease of heart, 285
 reaction of reticuloendothelial cells to subcutaneous injections of cholesterol; experimental animals: mice, 299
 Chromatolysis: See Neurons
 Chromoblastomycosis: See Blastomycosis
 Chromomycosis: See Blastomycosis
 Chromosomes, birefringence in, 72
 Cirrhosis: See Liver, cirrhosis
 Ciasmotocytes: See Phagocytes and Phagocytosis
 Coccioidomycosis, 125
 Cohen, H.: Pathologic aspects of atmospheric blast injuries in man, 12
 Colon: See Gastrointestinal Tract; Intestines
 Communicable Diseases: See also Syphilis; etc.
 among Okinawans, 367
 Concussion: See Brain, injuries
 Convulsions; eclampsia; report of case, with destruction of brain, 391
 Cooper, N. S.: Acute bronchopneumonia due to *Aspergillus fumigatus* fresenius; report of case, with description of acute and granulomatous lesions produced by fungus in rabbits, 644
 Cor Pulmonale: See Heart, abnormalities
 Cranium, intracranial hemorrhage; sudden and unexpected deaths of young soldiers; diseases responsible for such deaths during World War II, 468
 Cryptococcus Hominis: See Torula
 Cysts: See under names of organs and regions
 Cytology: See Cells
 Death, sudden and unexpected, of young soldiers; diseases responsible for such deaths during World War II, 459
 Deformities: See Abnormalities and Deformities
 Dermatitis Verrucosa: See Blastomycosis
 Desforges, G.: Primary adenocarcinoma of umbilicus, 635
 Dextrose, glycolysis; in vitro studies on physiology of cells; interactions of thymic cells and oxidation-reduction indicator, 2,6-dichlorophenolindophenol, 163
 Diabetes Mellitus; alloxantin; investigation of substance as used in experimental production of diabetes, 214
 Dichlorophenolindophenol: See Oxidation-Reduction

- Dichloropropane: See Chloropropane
 Dick, G. F.: Experimental endocarditis of dogs, 159
 Diet and Dietetics; atherosclerosis and arteriosclerosis in dogs following ingestion of cholesterol and thiouracil, 433
 renal changes associated with chloride deficient diet in rat, 49
 Digestive System: See Gastrointestinal Tract; Intestines; Pancreas; etc.
 Distinguished Service Medal of American Medical Association, 455
 Diverticula: See Duodenum
 Ductus Arteriosus; truncus arteriosus communis persistens, 427
 Dungal, N.: Cardioaortitis; report of case, 495
 Duodenitis: See Duodenum
 Duodenum; duodenitis with diverticulum and ectopic pancreatic tissue, 228
 Dyes: See Stains and Staining
 Dysentery, Amebic: See Amebiasis
 Eclampsia: report of case with extensive destruction of brain, 391
 Edema: See under names of organs and regions, as Lungs; etc.
 Effusions: See Exudates and Transudates
 Eggs; experimental atherosclerosis; effect of prolonged feeding of egg yolk powder in rats, 81
 Eltzen, O.: Carotid-cavernous fistula, 419
 Electrocardiogram: See under Heart
 Embolism: See also Thrombosis
 organized emboli of tertiary pulmonary arteries; unusual cause of cor pulmonale, 581
 Embryology: See Fetus; etc.
 Emphysema; pathologic aspects of atmospheric blast injuries in man, 12
 Endamoeba: See Amebiasis
 Endocarditis, experimental, of dogs, 159
 myocardial granulomas in subacute bacterial endocarditis, 574
 Endocardium: See Heart
 Enzymes; brain repair; phospholipid-splitting enzymes of brain phagocytes, 564
 cerebral concussion; histochemical demonstration of nucleases in cerebrospinal fluid, 175
 reaction of reticuloendothelial cells to subcutaneous injections of cholesterol; experimental animals: mice, 299
 Epidermis: See Skin
 Epididymis and testicular tunics, angiomatoid formations in, 56
 Erskine, C. A.: Bilateral ovarian aplasia, 381
 Esterase: See Enzymes
 Estrogens; some effects of prolonged massive estrogen treatment on rat with reference to thymus, 598
 Explosions; pathologic aspects of atmospheric blast injuries in man, 12
 Extremities; birefringence in skin and appendages, 72
 Exudates and Transudates; leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
 Eyes, birefringence in, 72
 Fat: See also Lipids
 experimental atherosclerosis; effect of prolonged feeding of egg yolk powder in rats, 81
 further evidence for successive stages in formation of neoplasms, 445
 systemic multicentric lipoblastosis, 320
 Fetus: See also Pregnancy
 functioning of fetal kidney as reflected by stillborn infants with hydronephrosis, 274
 structure of testis in infancy and in childhood with discussion of so-called underdeveloped testis, 35

- Fibrinogen plastics; tissue reactions induced by series of fibrinogen plastics implanted in abdominal wall of guinea pigs, 535
- Field, M. H.: Medial calcification of arteries of infants, 607
- Fingers and Toes; tumor of tactile end organs, 1
- Finney-Howell Fellowships, 456
- Fistula, carotid-cavernous, 419
- Ford, R.: Fibrinogen plastics; tissue reactions induced by series of fibrinogen plastics implanted in abdominal wall of guinea pigs, 535
- Formaldehyde; in vitro studies on physiology of cells; interactions of thymic cells and oxidation-reduction indicator, 2,6-dichlorophenolindophenol, 163
- Friderichsen-Waterhouse Syndrome: See Adrenals, hemorrhage
- Fungi: See also Blastomycosis; etc.
radiate formation on pathogenic fungi in human tissue, 113
- Gallbladder**, birefringence in, 76
- Gastrointestinal Tract: See also Intestines; etc.
and peritoneal cavity, birefringence in, 76
- Genitals; angiomatoid formations in genital organs with and without tumor formation, 56
bilateral ovarian aplasia, 381
- Gerontology: See Old Age
- Gilchrist's Disease: See Blastomycosis
- Gleoa formation in fungi, 142
- Glomerulonephritis: See Nephritis, glomerular
- Glucose: See Dextrose
- Glycogen; leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
- Glycolysis: See Dextrose, glycolysis
- Gonads: See Genitals; Ovary; Testes
- Gordon, L. Z.: Temporal arteritis; report of case and comparison with respect to periarteritis nodosa, 402
- Gout; pathologic changes in gouty arthritis, 557
- Grants; grants-in-aid of National Institute of Health, 243
- Granuloma, acute bronchopneumonia due to *Aspergillus fumigatus fresenius*; report of case, with description of acute and granulomatous lesions produced by fungus in rabbits, 644
- Malignant: See Hodgkin's Disease
- myocardial, in subacute bacterial endocarditis, 574
- Paracoccidiodal: See Blastomycosis
- Greenberg, D. M.: Renal changes associated with chloride deficient diet in rat, 49
- Gruenwald, P.: Structure of testis in infancy and in childhood with discussion of so-called underdeveloped testis, 35
- Hair**, diseases, gleoa formation in, 142
- Halpert, B.: Lipoma of mammary gland, 641
- Heart, abnormalities; organized emboli of tertiary pulmonary arteries; unusual cause of cor pulmonale, 581
abnormalities; truncus arteriosus communis persistens, 427
absence of left cardiac ventricle with aplasia of aortic orifice and hypoplasia of aorta, 590
block; atherosclerotic valvular disease of heart, 285
cardioarthritis; report of case, 495
disease; sudden and unexpected deaths of young soldiers; diseases responsible for such deaths during World War II, 463
myocardial granulomas in subacute bacterial endocarditis, 574
reaction of rats following injection of anti-rat-heart immune serum, 222
- Helme-Medin Disease: See Poliomyelitis
- Helminths: See under Intestines
- Hemorrhage: See Adrenals; Lungs; etc.
- Hepar Lobatum: See Liver, cirrhosis
- Hepatitis: See Jaundice
- Heppel, L. A.: Toxicology of 1,2-dichloropropane (propylene dichloride); pathologic changes produced by short series of daily exposures, 525
- Herbut, P. A.: Alloxantin; investigation of substance as used in experimental production of diabetes, 214
Tumor of thoracic inlet producing Pancoast syndrome; report of 17 cases and review of literature, 88
- Hicks, S. P.: Brain repair; phospholipid-splitting enzymes of brain phagocytes, 564
- Highman, B.: Toxicology of 1,2-dichloropropane (propylene dichloride); pathologic changes produced by short series of daily exposures, 525
- Hirsch, E. F.: Eclampsia; report of case in which there was extensive destruction of brain, 391
- Histology; birefringence in tissues, 69
- Hodgkin's Disease; primary Hodgkin's sarcoma of brain, 338
- Hormones: See Estrogens; etc.
- Hortega Memorial, 658
- Howell, K. M.: In vitro effect of penicillin on *Endamoeba histolytica*, 594
- Hydrocarbons: See Benzpyrene; Methylcholanthrene
- Hydronephrosis; functioning of fetal kidney as reflected by stillborn infants with hydroureter and hydronephrosis, 274
renal changes associated with chloride deficient diet in rat, 49
- Hydroureter: See Ureters
- Hyman, M. A.: Absence of left cardiac ventricle with aplasia of aortic orifice and hypoplasia of aorta, 590
- Hypercalcemia: See Blood
- Hypercholesteremia: See Blood, cholesterol
- Hyperglycemia: See Blood sugar
- Hyperparathyroidism: See under Parathyroid
- Hypertension: See Blood pressure, high
- Hypoglycemia: See Blood sugar
- Hypophosphatemia: See Blood
- Icterus**: See Jaundice
- Infantile Paralysis: See Poliomyelitis
- Infants: See also Children
newborn; absence of left cardiac ventricle with aplasia of aortic orifice and hypoplasia of aorta, 596
newborn; medial calcification of arteries of infants, 607
newborn, stem cell lymphoma of, 104
Stillborn: See Stillbirths
structure of testis in infancy and in childhood with discussion of so-called underdeveloped testis, 35
- Infection: See Wounds; Viruses; and under names of bacteria, as Meningococci; Streptococci; etc.
- Infectious Diseases: See Communicable Diseases; etc.
- Inflammation; leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
- Injuries: See under names of organs and regions, as Brain; etc.
- Institute of Pathology, 243
- Instruments: See Apparatus
- Interstitial Cells: See Testes
- Intestines: See also Gastrointestinal Tract
intestinal helminthic infections in Okinawans, 365
- Irradiation: See under names of diseases and organs
- Islands of Langerhans: See Pancreas

- Jaundice**, distribution of alkaline phosphatase in human liver; study of postmortem material, 501
 hepar lobatum; clinical significance of anatomic changes, 64
Joints: pathologic changes in gouty arthritis, 557
Joseph, H.: Eclampsia; report of case in which there was extensive destruction of brain, 391
Journals: See Periodicals
Jungle Warfare: See Military Medicine
- Kalfayan, B.**: Duodenitis with diverticulum and ectopic pancreatic tissue, 228
Kendall, F. E.: Atherosclerosis and arteriosclerosis in dogs following ingestion of cholesterol and thioracil, 435
Kidneys, birefringence in, 78
 calculi; primary hyperparathyroidism; report of 5 cases that exemplify special features of this disease (infarction of parathyroid adenoma; oxyphil adenoma), 261
Diseases: See Hydronephrosis; Nephritis
 fetal, functioning as reflected by stillborn infants with hydrourter and hydronephrosis, 274
 glomerulonephritis, Wilms's tumor and horseshoe kidney in infant, 549
 pathologic changes resulting from administration of streptomycin, 619
 renal changes associated with chloride deficient diet in rat, 49
 renal intratubular syncytial masses; note on their origin, 572
 toxicology of 1,2-dichloropropane (propylene dichloride); pathologic changes produced by short series of daily exposures, 525
Kilne, B. E.: Further evidence for successive stages in formation of neoplasms, 445
Knisley, R. M.: Primary melanoma of adrenal gland, 345
Knoll, E. W.: In vitro effect of penicillin on *Endamoeba histolytica*, 594
- Laboratories**; centrifuge method of determining blood proteins, 350
Langerhan's Islands: See Pancreas
Lelomysarcoma, primary bronchiogenic, 543
Leukemia, distribution of alkaline phosphatase in human liver; study of postmortem material, 501
Leukocytes: See also Leukemia; Phagocytes and Phagocytosis; etc.
 count; leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
Leukopenia: See Leukocytes, count
Lewis, J. H.: Centrifuge method of determining blood proteins, 350
Libraries, 243
Lichtman, A. L.: Birefringence in tissues, 69
Limbs: See Extremities
Lipids: See Lipoids
Lipoblastosis: See Fat
Lipoids: See also Cholesterol; Fat; Phosphorus and Phosphorus Compounds; etc.
 birefringence in fatty tissue, 71
 systemic multicentric lipoblastosis, 320
Lipoma of mammary gland, 641
Lithiasis: See Kidneys, calculi
Liver, absence, complete, of left lobe of, 232
 birefringence in, 76
 cirrhosis; hepar lobatum; clinical significance of anatomic changes, 64
 distribution of alkaline phosphatase in human liver; study of postmortem material, 501
 experimental atherosclerosis; effect of prolonged feeding of egg yolk powder in rats, 81
Liver—Continued
 leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
 pathologic changes resulting from administration of streptomycin, 619
 toxicology of 1,2-dichloropropane (propylene dichloride); pathologic changes produced by short series of daily exposures, 525
Lowenhaupt, E.: Renal changes associated with chloride-deficient diet in rat, 49
 Renal intratubular syncytial masses; note on their origin, 572
Luhan, J. A.: Epidemic poliomyelitis; some pathologic observations on human material, 245
Lungs: See also Bronchi; Thorax; etc.
 acute bronchopneumonia due to *Aspergillus fumigatus fresenius*; report of case, with description of acute and granulomatous lesions produced by fungus in rabbits, 644
 birefringence in, 74
 edema; pathologic aspects of atmospheric blast injuries in man, 12
 hemorrhage; pathologic aspects of atmospheric blast injuries in man, 12
 leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
 primary pulmonary vascular sclerosis, 630
 reaction of rats following injection of anti-rat-heart immune serum, 222
 tumor of thoracic inlet producing Pancoast syndrome; report of 17 cases and review of literature, 88
Lutz-Splendore-de Almeida Disease: See Blastomycosis
Lymphogranuloma, Hodgkin's: See Hodgkin's Disease
Lymphoma, stem cell, of newborn, 104
- McDonald, J. R.**: Birefringence in tissues, 69
Macrophages: See Phagocytes and Phagocytosis
Madura Foot: See Mycetoma
Maduromycosis: See Mycetoma
Malformations: See under names of organs and regions, as Heart; Liver; etc.
Mallory, G. K.: Primary pulmonary vascular sclerosis, 630
Malnutrition: See under Nutrition
Mammary Gland: See Breast
Martland, H. S.: Pathologic changes resulting from administration of streptomycin, 619
Medicine, Military: See Military Medicine
Tropical: See Tropical Medicine
Medin-Heine Disease: See Poliomyelitis
Medionecrosis: See Aorta
Melanoma, primary, of adrenal gland, 345
Meninges, intracranial hemorrhage; sudden and unexpected deaths of young soldiers; diseases responsible for such deaths during World War II, 468
Meningococci; meningococcemia; sudden and unexpected deaths of young soldiers; diseases responsible for such deaths during World War II, 477
Menkin, V.: Leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
Merrill, G. G.: Complete absence of left lobe of liver, 232
Mesenchyme: See Mesoderm and Mesodermal Tissues
Mesoderm and Mesodermal Tissues; angiomatoid formations in genital organs with and without tumor formation, 56
Methylcholanthrene; course of wound healing in skin of mice under influence of carcinogens, 193
 further evidence for successive stages in formation of neoplasms, 445
Microorganisms: See Fungi; Spirochaeta; etc.
Microscopy; birefringence in tissues, 69

- Military Medicine; necropsies on Okinawans: anatomic and pathologic observations, 359
 pathologic aspects of atmospheric blast injuries in man, 12
 sudden and unexpected deaths of young soldiers; diseases responsible for such deaths during World War II, 459
 Mitosis: See Cells, division
 Molds: See Fungi
 Moore, M.: Radiate formation on pathogenic fungi in human tissue, 113
 Morehead, R. P.: Angiomatoid formations in genital organs with and without tumor formation, 56
 Moritz, A. R.: Sudden and unexpected deaths of young soldiers; diseases responsible for such deaths during World War II, 459
 Muscles, birefringence in, 70
 experimental cholesterol arteriosclerosis; changes produced in skeletal muscle, 277
 Mushett, C. W.: Pathologic changes resulting from administration of streptomycin, 619
 Mycetoma, 131
 Mycosis: See Blastomycosis; Mycetoma; Torula; etc.
 Myoblastoma, granular cell, 517
 Myocardium: See Heart
 Myoma; angiomatoid formations in genital organs with and without tumor formation, 56
- National Institute of Health, 243, 456
 Necropsies: See Autopsies
 Necrosis: See Aorta
 Neoplasms: See Cancer; Sarcoma; Tumors
 Nephritis, glomerular; glomerulonephritis, Wilms' tumor and horseshoe kidney in infant, 549
 Nephrolithiasis: See Kidneys, calculi
 Nephropathy: See under Kidneys
 Nephrosis: See under Kidneys; Nephritis
 Nerves: See also Nervous System
 birefringence in nervous tissue, 70
 Cells: See Neurons
 peripheral; tumor of tactile end organs, 1
 Nervous System: See also Brain; Nerves; Neurons; etc.
 pathologic changes resulting from administration of streptomycin, 619
 Neurofibroma; tumor of tactile end organs, 1
 Neurons; cerebral concussion; histochemical demonstration of nucleases in cerebrospinal fluid, 175
 Nipple: See Breast
 Nodes: See Rheumatic Fever
 Norris, E. H.: Primary hyperparathyroidism; report of 5 cases that exemplify special features of this disease (infarction of parathyroid adenoma; oxyphil adenoma), 261
 Nucleins; cerebral concussion; histochemical demonstration of nucleases in cerebrospinal fluid, 175
 Nucleoproteins; cerebral concussion; histochemical demonstration of nucleases in cerebrospinal fluid, 175
 Nutrition; malnutrition among Okinawans, 375
- Obituaries:
 Flexner, Simon, 234
 Freund, Ernst, 243
 Getzowa, Sophia, 658
 Larson, Winford P., 658
 MacNeal, Ward J., 455
 Plette, Eugene C., 658
- Old Age; Journal of Gerontology and Non-Technical Supplement, 111
 retrogressive, degenerative and senile changes in Okinawans, 371
 Ople, E. L.: Simon Flexner, 234
 Organs; pathologic changes resulting from administration of streptomycin, 619
- Osteitis fibrosa; primary hyperparathyroidism; report of 5 cases that exemplify special features of this disease (infarction of parathyroid adenoma; oxyphil adenoma), 261
 Osteosclerosis, nodular, disseminated reticuloendothelial tumor of bone marrow with, 206
 Ovary, angiomatoid formations in, 59
 bilateral ovarian aplasia, 331
 birefringence in, 78
 granular cell myoblastoma, 517
 Oxidation-Reduction; in vitro studies on physiology of cells; interactions of thymic cells and oxidation-reduction indicator, 2,6-dichlorophenolindophenol, 163
- Pascoast Syndrome: See Lungs
 Pancreas; duodenitis with diverticulum and ectopic pancreatic tissue, 228
 Paré, M.: Silver impregnation of spirochetes in tissue sections; description of new technic, 649
 Paracoccidiodal Granuloma: See Blastomycosis
 Paralysis, Infantile: See Poliomyelitis
 Parathyroid; primary hyperparathyroidism; report of 5 cases that exemplify special features of this disease (infarction of parathyroid adenoma; oxyphil adenoma), 261
 Penicillin: See Amebiasis
 Periarthritis nodosa; temporal arteritis; report of case and comparison to periarthritis nodosa, 462
 Periodicals; Journal of Gerontology and Non-Technical Supplement, 111
 Research in Medical Science, 111
 Peritoneum; birefringence in peritoneal cavity, 76
 Perkins, E.: Alloxantin; investigation of substance as used in experimental production of diabetes, 214
 Phagocytes and Phagocytosis: See also Reticuloendothelial System
 brain repair; phospholipid-splitting enzymes of brain phagocytes, 564
 reaction of reticuloendothelial cells to subcutaneous injections of cholesterol; experimental animals: mice, 299
 Phenols; in vitro studies on physiology of cells; interactions of thymic cells and oxidation-reduction indicator, 2,6-dichlorophenolindophenol, 163
 Phosphatase; distribution of alkaline phosphatase in human liver; study of post-mortem material, 501
 Phosphorus and Phosphorus Compounds; brain repair; phospholipid-splitting enzymes of brain phagocytes, 564
 Piedra: See Hair, diseases
 Plagge, J. C.: Some effects of prolonged massive estrogen treatment on rat, with reference to thymus, 598
 Plasma: See Blood; Serum
 Plastics, fibrinogen; tissue reactions induced by series of fibrinogen plastics implanted in abdominal wall of guinea pigs, 535
 Poisons and Poisoning: See under names of specific substances
 Polarized Light Method: See Histology
 Poliomyelitis, bulbar; epidemic poliomyelitis; some pathologic observations on human material, 245
 Polyarteritis Nodosa: See Periarthritis nodosa
 Popliteal Space; systemic multicentric lipoblastosis, 326
 Portal Cirrhosis: See Liver, cirrhosis
 Postmortems: See Autopsies
 Powell, E. B.: Granular cell myoblastoma, 517
 Pregnancy: See also Fetus
 toxemia; eclampsia; report of case with extensive destruction of brain, 391
 Prizes: See Awards

- Propylene Dichloride: See Chloropropane
- Prostate; birefringence in prostate gland, 78
- Pyrexia; leukopenic factor of exudates; mechanism concerned in leukopenia induced by it, 154
- Races; necropsies on Okinawans; anatomic and pathologic observations, 359
- Radiate Formation on pathogenic fungi in human tissue, 113
- Radiations: See under names of various diseases
